

Bosco Chan
FSA, FCIA, MCA, MMath, BSc (Hons.)

Consultant
Mercer Human Resource Consulting

Bosco Chan is a Consultant in the Retirement business in the Toronto office of Mercer Human Resource Consulting.

Prior to joining Mercer, Bosco was an Actuarial Associate at Leong & Associates Actuaries and Consultants Inc. in Vancouver. A summary of his current and past professional experience includes Retirement Consulting, Actuarial Valuation for Financial Reporting and filing with regulators, Pension Fund Investment Performance Review, Pension Administration Consulting, Supplemental Executive Retirement Plan, Individual's Pension Plan, Post-Retirement Health Care Benefits Actuarial Valuation.

Bosco was interviewed by OMNI Television in Toronto about Canada Pension Plan in December 2004. Bosco is the author of a paper: "Pension Plan Life-cycle Funding Approach" which is expected to be published as a Society of Actuaries Call for Papers – The Future of Pension Plan Funding and Disclosure: Envisioning a Better System conference monograph in September 2005. Bosco is the author of two articles: "Building Solid Business Relationships - a Reflection of Everyday Relationships" and "The Ripple Effect of Asian Tsunami around the World" which were published by Society of Actuaries International Section Newsletter in April and July 2005, respectively.

Bosco actively participates in local actuarial clubs and in developing local business training programs for actuarial students. Bosco is the President of the Pacific-Rim Actuaries' Club of Toronto and has been a member of the executive committee since 2002. This club receives support from 18 consulting and insurance firms and it should be the largest actuarial club in Canada. His contribution to the club includes strategic market positioning, marketing, resourcing, and planning future events (seminars for management training to complement technical skills, semi-annual meetings, and social gatherings) for the club.

For non-actuarial activities, Bosco is a member of the Professional Risk Managers' International Association (PRMIA) and a member of the Global Association of Risk Professionals (GARP).

Bosco graduated from the University of Toronto in 1996 with an Honours Bachelor of Science degree with a specialist in Actuarial Science, a major in Economics, and a minor in Statistics and from the University of Waterloo in 1997 with a Master of Mathematics degree in Actuarial Science. He obtained his master degree when he was at age 21. He was the instructor of a fourth year undergraduate course in Mathematics of Demography offered by Simon Fraser University, near Vancouver, in summer 1999.

Bosco is a Fellow of the Society of Actuaries, a Fellow of the Canadian Institute of Actuaries, and a Member of the Conference of Consulting Actuaries.

Currently, Bosco is running for SOA's pension section council.
